SRI LANKA IS RE-ENTERING THE INTERNATIONAL PRODUCTION CONVERSATION.

Daily Mirror reported Indian producers and directors selecting Sri Lanka and tourist hotspots for film shooting, while noting Sri Lanka has historically been under-marketed as a film destination.

Public signal

Indian film interest is visible. The missing layer is a professional gateway that converts attention into booked production work.

Film Ceylon turns raw variety into packaged, permittable, budgetable production plans.

TOURISM RECOVERY GIVES FILM PRODUCTION A READY ECONOMIC BASE.

Film production can become a high-value extension of tourism: hotels, transport, food, locations and creative labour.

COMPLEXITY

FORMAL APPROVAL CREATES A NATURAL ROLE FOR A LOCAL PRODUCTION PARTNER.

1. FOREIGN CREW

Professional filming requires formal approval and media-visa compliance.

2. LOCAL PARTNER

NFC encourages foreign applicants to use professional local production companies or fixers.

3. EXTRA APPROVALS

Main NFC permission may still require location-specific approvals.

Film Ceylon's opportunity is to make regulatory navigation producer-friendly and investor-readable.

FILM CEYLON BECOMES THE SRI LANKA-SIDE PRODUCTION PARTNER.

BUILD CREDIBILITY, SELL DIRECTLY, THEN CONVERT INTO PRODUCTION WORK.

PHASE 1: CREDIBILITY

Website, location library, producer deck, service rate card, permit guide, outreach database and vendor network.

PHASE 2: DIRECT SALES

Chennai, Hyderabad, Mumbai, Kochi, Europe and Canada/US diaspora producers.

PHASE 3: CONVERT

Paid scouting, song shoots, documentary support, second-unit shoots and full line production deals.

This is why strategic introductions matter as much as ad spend.

WE ARE NOT ASKING FOR A FIXED CASH AMOUNT NOW.

The ask is strategic leverage first.

PROJECT-BASED OPEX AFTER SIGNED DEALS

CAPITAL DISCIPLINE: OPEX ONLY AFTER SIGNED DEALS

OPERATIONAL FUNDING IS REQUESTED ONLY AFTER A DEAL IS SIGNED.

1. SIGNED DEAL

Confirmed production contract or advanced deal stage creates the funding trigger.

2. OPEX BRIDGE

Short-term operational cash covers mobilisation before client cash catches up.

3. RISK CONTROL

Investor support is tied to confirmed production contracts, not open-ended burn.
