

FILM CEYLON

SRI LANKA LINE PRODUCTION NEEDS A SHARPER GLOBAL FRONT DOOR.

A practical ask for a local Sri Lankan investor: fund the 6-month marketing runway, open industry doors, and support working capital only when a signed line-production job enters execution.

MARKETING RUNWAY

LKR 200,000
per month

DURATION

6 MONTHS

TOTAL SUPPORT

LKR 1.2M

PLUS INDUSTRY SUPPORT

FOREIGN SHOOTS WANT SRI LANKA, BUT LOCAL EXECUTION IS THE RISK.

Sri Lanka is visually strong. The buying hesitation is operational: can a producer land, permit, scout, shoot, account and wrap without uncertainty?

01

PERMITS

National approvals, location-specific clearances, drone, police, traffic, wildlife and religious-site permissions.

02

LOCAL RATES

Foreign producers need realistic budgets, vendor negotiation, cash handling and daily cost reporting.

03

TRUST

Crews need fixers who can manage Tamil, Sinhala and English field realities without losing compliance.

04

EXECUTION

Hotels, transport, crew, security, casting, equipment, catering and releases must move as one unit.

INVESTOR LOGIC: fund the sales layer that turns this friction into a managed Sri Lankan production service.

ONE COMPACT ISLAND CAN PLAY MULTIPLE CINEMATIC WORLDS.

The product is not one location. It is speed between looks.

COAST

Mirissa, Galle, Bentota, Trincomalee, Arugam Bay

HERITAGE

Galle Fort, Kandy, Jaffna Fort, colonial rail stations

HILLS

Ella, Nine Arch Bridge, Nuwara Eliya, tea estates

CITY

Colombo skyline, Port City, Pettah, luxury interiors

NORTH / EAST

Jaffna, Batticaloa, Mannar, Tamil coastal villages

WILD

Yala, Wilpattu, Sinharaja, Udawalawe, forest roads

Film Ceylon packages that visual range into location packs, permits, local crews and execution plans international producers can approve.

FILM CEYLON SELLS THE OPERATING LAYER BEFORE THE CAMERA ROLLS.

The company is not a location gallery. It is a local execution system for international producers who need a reliable Sri Lanka proxy.

Core margin comes from managing the local production machine: budgets, vendors, crew, logistics, permits and production accounting.

FOUR DESKS MAKE THE SALES MOTION SPECIFIC INSTEAD OF GENERIC.

Each audience buys a different kind of certainty.

01	INDIAN CINEMA	KOLLYWOOD, BOLLYWOOD, TOLLYWOOD, MALAYALAM	Song shoots, overseas schedules, star logistics, crowd control, Tamil/Hindi/Sinhala/English coordination.
02	HOLLYWOOD / STREAMERS	US STUDIOS, STREAMERS, INDIES	Second-unit, scenic plates, factual work, releases, NDAs, risk and cost reporting.
03	EUROPE	DOCS, CAMPAIGNS, FACTUAL TV	Research access, transparent accounting, public-broadcast discipline and field-ready local crews.
04	NORTH AMERICA	INDIES, DIASPORA STORIES, MUSIC VIDEOS	Remote producer support, location packs, compact crews and daily communication.

MARKETING MUST TARGET DESKS, NOT EVERYONE.

REVENUE IS TIED TO PROJECT EXECUTION, NOT PASSIVE DESTINATION CONTENT.

The service ladder grows with production complexity.

01

SCOUTING & PERMIT SETUP

Location packs, permit path, estimate prep and producer confidence before travel.

02

LINE PRODUCTION

Budgeting, scheduling, local crew, vendors, logistics, cash handling and daily reporting.

03

SPECIALIZED EXECUTION

Casting, extras, drone, stunt, marine safety, VIP movement, translators and researchers.

04

REMOTE / SECOND UNIT

Scenic plates, drone footage, pickup interviews and remote producer monitoring.

Investor takeaway: the first capital should buy qualified deal flow; larger working capital should be linked to signed production execution.

THE LKR 200,000 MONTHLY SPEND IS A LEAD-GENERATION MACHINE.

LKR 200,000

PROPOSED MONTHLY MARKETING COST

Six-month total: LKR 1,200,000. This is proposed operating spend, not founder salary replacement or open-ended working capital.

THE RUNWAY SHOULD PROVE RHYTHM BEFORE BIGGER CAPITAL IS CONSIDERED.

Treat the first six months as an operating experiment with visible weekly discipline.

REVIEW BEFORE SCALE

Next capital should be based on qualified pipeline and signed production needs.

THE INVESTOR IS NOT JUST FUNDING ADS. THEY ARE REDUCING LOCAL EXECUTION RISK.

01

CAPITAL

Fund the LKR 200,000 monthly marketing engine for six months.

02

INDUSTRY SUPPORT

Open doors to tourism, hospitality, location owners, vendors, government-facing contacts and local business networks.

03

CREDIBILITY

Help position Film Ceylon as a serious Sri Lankan production partner, not an informal fixer network.

04

DEAL SUPPORT

Provide working capital only against live line-production jobs where timing gaps must be bridged.

Best-fit investor profile: Sri Lankan business operator with access, patience for a six-month demand-building cycle, and discipline around deal-linked capital.

STAGE THE CAPITAL AROUND WHAT IS KNOWABLE.

Marketing is fixed. Working
capital is conditional.

IMMEDIATE SUPPORT

LKR 200,000

per month for 6 months

Funds a controlled marketing
runway: paid campaigns, content,
outbound, location proof assets and
CRM.

NON-CASH REQUIREMENT

**INDUSTRY
SUPPORT**

Introductions to
production-adjacent operators,
hospitality groups, location owners,
authorities and vendor networks.

CONDITIONAL SUPPORT

**WORKING
CAPITAL**

Triggered only when a
line-production work is in deal or
execution and the project needs
cash-flow bridging.

DECISION GATE: SIGNED / ADVANCED PRODUCTION DEAL
